

amendments pending on this bill except for this one.

SENATOR NORE: Now does this set up a possibility of a Veterinary Medicine and Surgery College?

SENATOR GOODRICH: This does not change that one iota, Herb. At the beginning of the bill it says the University of Nebraska may embrace and then in the section 4 of the bill it says Veterinary Medicine and Surgery, however that is part of the State statutes right now. The may and the Veterinary Medicine and Surgery are both part of the State statutes right now.

SENATOR NORE: All right.

PRESIDENT: All right now, Senator Kelly, back to you. Do you have further discussion?

SENATOR KELLY: Mr. President, questions of Senator Goodrich.

SENATOR GOODRICH: Yes.

SENATOR KELLY: Senator Goodrich, what is an institute of Agriculture?

SENATOR GOODRICH: That's the University's way of saying Ag College.

SENATOR KELLY: Well, is an institute the same as a college?

SENATOR GOODRICH: This is the terminology put forth by the University and I frankly didn't argue with them on how they wanted to say it.

SENATOR KELLY: Well, if an institute and a college is the same, why shouldn't we leave it college of agriculture?

SENATOR GOODRICH: Because of the fact that they said institute as opposed to college and I don't know that there is any difference, I'm not sure whether or not there is any difference.

SENATOR KELLY: I don't know either and if you don't know, why don't we leave it the College of Agriculture?

PRESIDENT: Stand by just a minute, Senator Kelly. Senator Fowler may have some input here. Senator Fowler.

SENATOR FOWLER: Yes, Senator Kelly, I think the reason they want to give it a different name is with regard to the other bill that would create a Vice Chancellor for Agriculture and would be then a Vice Chancellor for the Institute of Agriculture and Natural Resources. In a way that bill differentiates this from other colleges, you know, because it gives it a different, rather than being headed by a dean it's headed by a Vice Chancellor so I think just to make that decision they call it a different name. It still can grant degrees and do everything else it can do now as a college. Does that help?

PRESIDENT: Senator Kelly.

SENATOR KELLY: Senator Goodrich.

SENATOR GOODRICH: I've got a little more information for you on that terminology of institute. LB 149 for example created a Vice Chancellorship of the Ag College, right? Now that's what they used as terminology when they drafted that bill and created the Vice Chancellorship so that's why it was being used here.

SENATOR KELLY: Well, in this bill that's item 3 under the following colleges which is not a college but an institute. I would question that. Now what is the College of Natural
